

MAMONEX

RISK DISCLOSURE STATEMENT

Mamonex Ltd [2024/00738] ("the Company", "Mamonex", "we", "our" or "us") is registered in Saint Lucia, British West Indies.

The company provides online platforms for clients to trade over-the-counter (OTC) derivatives, including margin foreign exchange ("Forex") contracts and contracts-for-difference ("CFDs"). The company's online platforms operate through the www.mamonex.com website ("Website") and the Mamonex mobile applications (the "Apps").

Trading of foreign exchange contracts, contracts for difference, derivatives and other investment products which are leveraged, can carry a high level of risk. These products may not be suitable for all investors. It is possible to lose more than your initial investment. You should carefully consider whether trading is suitable for you in light of your circumstances, knowledge, and financial resources. Opinions, market data, and recommendations are subject to change at any time. All funds committed should be risk capital. Past performance is not necessarily indicative of future results.

Trading Foreign Exchange ('Forex') is a challenging and potentially profitable opportunity for educated and experienced investors. However, before deciding to participate in the Forex market, you should carefully consider your investment objectives, level of experience and risk appetite. Most importantly, do not invest money you cannot afford to lose. Please be aware of the Forex risk.

OTHER RISK

Market Risk

Is the risk that the value of a portfolio will decrease due to the change in value of the market factors such as stock prices, interest rates, exchange rates and commodity prices. In case of a negative fluctuation in prices, the Client runs the risk of losing part or all of his invested capital.

Systemic Risk

Is the risk of collapse of the entire market or the entire financial system. It refers to the risks imposed by interdependencies in a system or market, where the failure of a single entity or cluster of entities can cause a cascading negative effect, which could potentially bring down the entire system or market.

Technical Risk

Faults in electronic equipment used to perform margin trading and investment operations may lead to unexpected and unpredictable results and therefore to losses on the Client's operations in the international exchange market (FOREX). At the carrying out of transactions via an electronic trading system, the Client runs the risk related with possible faults in the system, including equipment and software failures.

Operational Risk

Is the risk of business operations failing due to human error. Operational risk will change from industry to industry and is an important consideration to make when looking at potential investment decisions. Industries with lower human interaction are likely to have lower operational risk.

Country Risk

Is the risk that an investment's returns could suffer as a result of political changes or instability in a country. Instability affecting investment returns could stem from a change in government, legislative bodies, other foreign policy makers, or military control.

Interest Rate Risk

Is the risk that an investment's value may change due to a change in the absolute level of interest rates, in the spread between two rates, in the shape of the yield curve, or in any other interest rate relationship.

Foreign Exchange Risk

Is the risk of an investment's value being affected by changes in exchange rates.

Legal and Regulatory Risk

A change in laws or regulations made by the government or a regulatory body may increase the costs of operating a business, reduce the attractiveness of an investment and/or change the competitive landscape and by such materially alter the overall profit potential of your investment. This risk is unpredictable and may vary depending on the market for the underlying asset of a given CFD.

RISKS BEYOND THE CONTROL OF THE COMPANY

The Client and not the Company, is completely liable for the following risks, the listing of which is not exclusive:

- a. Lack of knowledge of the trading terminal settings;
- b. Technical faults in the Client's software;
- c. Disclosure of the registration credentials to the third parties at the opening of the real account; d. Unauthorized access by the third party to the personal email account of the Client;

- e. Delay in reading the information sent the Client's email address;
- f. Any other force-majeure circumstances on the part of the Client.
